The Value of a Remote Internship

Advising Guide

Virtual internships prepare you for the future of work

- The workplace has been permanently transformed as a result of COVID-19.
- Employees will not be returning to the same office they left behind
- Everyone will need to find new ways to connect and collaborate.
- 67% of companies expect work-from-home to be permanent or long-lasting.
- 70% of employees want a hybrid workplace model post COVID-19.
- Companies have added the ability to work remotely and independently to the list of top soft and hard skills they seek in their employees (according to data from SkillsSurvey).
- Knowing how to navigate this new workplace in-person and virtually will give students and recent graduates a competitive advance when looking for a job.

What you’ll gain through a virtual internship

Aside from the standard core competencies that you could develop through any internship, there are skills that are unique to a virtual internship that will also matter when launching your career. For example:

- Working autonomously
- Time management
- Proficient use of technology
- Initiative and self-awareness

The impact of the TWC virtual program

- 92% of remote interns surveyed felt engaged at their remote internship.
- 4 out of 5 students say that the work they completed remotely is just as robust (and sometimes even more robust) than work done in-person.
- On average, students rate their virtual career readiness workshops 4.3 out of 5 stars
- Over 80% of students find their dedicated career advisors to be a valuable resource.
- 89% of internship supervisors who have hosted both in-person and remote TWC interns report that remote interns have demonstrated the same or a higher level of professional growth over the period of their internship.
